

## THE HERALD.

SALT LAKE CITY, UTAH.

WEDNESDAY, September 16, 1891.

Advertisements in this column 50 cents per line each insertion.

## LOCAL AND OTHER BRIEFS.

Full styles at Barton & Co's, BARGAINS in furniture. S. R. Marks & Co. GET your lunch at the Saddle Rock today. LACK curtain 10c per pair. S. R. Marks & Co. SCARF, 20c. First South, patent medicines. LADIES' and wall paper. S. R. Marks & Co.

FRESH fruits and vegetables at Eclipse Grocery company, 22 E. First South.

OCTOBER 15th and 16th will give away a \$100 piano. Look up your tickets.

INSURE in the Home Fire of Utah. H. J. GRANT & Co., Agents, with State bank.

In the Third district court yesterday, Joseph Taylor, a native of England, was admitted to citizenship.

The Denhamer child escaped the room yesterday by a narrow margin and had a good time at Calder's.

FOR a gent's summer suit made to order from home-made tweed, go to John C. Cutler & Co., No. 22 Main street.

SILVERLINE spoons 50 cents a set, seven, eight and nine line shears for 25 cents a pair. Salt Lake Equitable Co.-Op.

THE cents per copy will be paid for copies of the Salt Lake Tribune from January 1 to March 1, 1892, sent to this office.

AND now the city is threatened with a batch of damage suits for botched garages. The whole administration is a blot.

In the civil suit of H. W. Fuller vs. Driggs and Thompson, Commissioner Greenman yesterday gave judgment for the plaintiff for \$100.

ALL the delegates from Colorado to the Irrigation congress are requested to meet in room 1 at the Templeton hotel, this morning at 10 o'clock.

THE space between the sidewalk pavement and the curb, west of the city hall, has been filled in with earth and will be covered with sod today.

A LARGE number of the boys in blue were down from the fort last night and they succeeded in making things rather lively around the saloons.

ZION'S Savings Bank and Trust Co. loan ornamental auxiliary banks for homes. Interest 5 per cent. Willford Woodruff president; George J. Cannon, vice president.

SERGEANT DONOVAN yesterday arrested a carpenter named C. E. Campbell on the charge of stealing a lot of brass castings from the Union Pacific yards.

THE rain which set in last night was thoroughly refreshing and gave the delegates to the irrigation congress notice that it does occasionally rain in Utah.

TOM HOLLAND and Bernard Scaller were arrested last evening on suspicion of being concerned in the burglary at Lipman & Wallerstein's on Sunday night.

FOR the first time in many months Night Watchman Dobson's form was missed from his accustomed beat on Main street last night. His absence was due to illness.

THE arraignment of the police in THE HERALD by A. T. Holt and the charge of Judge Zane to the grand jury, make "mighty interesting reading" for the law-abiding citizen in his leisure hours.

THE soldiers from Fort Douglas who have been out on a tramp for several days brought back about noon yesterday at Garfield beach and pitched their camp there. They will remain about three days.

THERE are messages at the Western Union telegraph office for W. F. Burgess, Miss Grace M. Barrett, C. S. Fillmore, Lawrence Gordon, W. J. Snodgrass, F. J. Seagondollar, (4); Fred Allard, James Donnelly.

CLARENCE McILLAR, of the district court, yesterday completed his compilation of civil cases on the docket, and the result was a ponderous type-written volume. As the cases have not yet been set for hearing, there is no interest attached to them.

At the Democratic convention to be held at Spokane Falls, Washington, on the 22d and 23d instant, about twenty-five delegates are expected to go from Salt Lake and about the same number from Ogden. The Union Pacific will give reduced rates for that trip.

GOVERNOR THOMAS is at work upon his annual report to the secretary of the interior. The report will be completed by October 1, and will be awaited with more interest here than any former report made by the governor.

AMONG the delegates to the Irrigation congress are some of the brainiest politicians in the country, both Democratic and Republican. Come to think of it, the west is furnishing the best things in the country anyway; from gold and silver to grit and grey matter.

OSWESHER SALASBURY's report for yesterday's temperature is as follows: At 5:30 a. m., Salt Lake city, 66; Lander, 48; Guster Station, 45; Helena, 35. At 11:30 a. m., Salt Lake, 69; Bingham, 59; Ogden, 61; Logan, 61; Park City, 66; Provo, 58; Alta, 58; Stockton, 65.

The Calcedonia club had a glorious time last evening at the Temple of Honor hall. Ice cream and cake were served, recitations rendered, Scotch songs sung, and an entertainment closed with the singing of "Old Lang Syne." All present voted the entertainment a success.

The Irrigation convention made a requisition on the directors of the Choral society last evening for 1000 tickets for members and 100 tickets for the delegates party. These 1100 seats will take up a goodly part of the gallery, which is reserved exclusively for the visitors. Entrance will be at the east gallery door for all the guests.

The Irrigation congress will hold two sessions today and the ladies of Salt Lake cannot in any way better show their love for their city and appreciation for their visitors than by attending the meetings. All persons are welcome and the presence of the ladies has an inspiring effect on the speakers and gives animation to otherwise grave proceedings. All are welcome.

To provide more room for its departments in the south end of its building the C. M. I. intends to put up a building on the old coop lot to the north of its present quarters for the hardware department. The building will be 60 feet frontage and will extend 110 feet to the rear. When this is completed and the hardware department is moved into it, the whole space now devoted to hardware will be utilized for the glass, crockery and queensware department.

In view of the many complaints made in regard to the great number of robberies and burglaries committed in all towns where the Furpaugh show exhibits, Marshal Young has been quietly investigating the matter and communications from the marshals of several cities indicate that the shows are not committed by attendees of the show, but by hangers on. The marshal has hit upon an ingenious scheme for preventing these toughs from operating here. The show people have not yet received a license

and the marshal says that it shall not be issued unless the managers furnish him with a complete list of the employees. Then before the show reaches this city he will go through the train and those whose names have been furnished and no others, will be allowed to land. If the show people don't like these terms, they can give us the go by. The move is an eminently proper one, for Salt Lake has all the crooks of her own that can be looked after.

The Western Union has just opened a branch office in the Knutsford hotel, and in stringing the wire it was accidentally brought in too close proximity to an electric light wire. The result was that when the wire was tested last evening, the wire board in the main office of the telegraph company was set on fire, and the blaze extended into the cellar under the building. Superintendent Joseph E. Smith, William H. Rowe, Abraham H. Cannon, Spencer Clawson, Elias Morris, Charles S. Burton, Nephi W. Clayton, Frank Y. Taylor, P. T. Furaworth, E. M. Weiler, H. A. Woolley. Sent for copy of rules and regulations.

KOL-TURA (JOHNSON) for Cholera, Diarrhoea. Free samp. Johnson, Pratt & Co.

Stone of all sizes carried in stock at yard of Mountain Stone Co. Office, 70 Culmer block. Best stone in Utah and lowest figures.

A SAVING OF 25 PER CENT. Guaranteed if you buy your Clothing and Carpet Furnishings Goods of Joseph Simon, opposite Continental hotel.

Dave L. Levey, painter, paper hanger and glazier, 109 Third East. Wall paper cleaned.

Thirty bars people's soap for \$1 at People's Equitable Co.-Op.

TO-NIGHT'S CONCERT.

The public is requested to note that only the south gates will be opened. The doors of the tabernacle open at 7; concert at 8. Children in arms will positively not be admitted. The doors will be closed during the rendition of each number. The east part of the gallery will be reserved for the guests of the occasion, the members of the Irrigation congress. Admission below, 50 cents. Tickets are on sale at all the book and music stores, and to avoid the crush at the gate, the public is advised to secure tickets in advance. THE COMMITTEE.

CLIFF HOUSE.

Located Corner Main and Third South Streets.

The Cliff is the best 25c day house in the city. Rooms large, cool and airy; new and handsome furniture, electric light, and all the latest conveniences and accessories. Dining hall spacious and perfect in its appointments. Table first-class. The only house in the city serving breakfast, dinner and supper, other hotels serving lunch.

ANDREW C. BAKER & BRO., Props.

PERSONAL MENTION.

Mrs. A. C. HINLEY and child left for a six weeks' trip to Dakota yesterday, via the Rio Grande Western.

J. H. GILCHRIST returned from Europe with an \$800 check from J. H. McChrystal on a life insurance policy.

P. A. REPPERT, train master of the Union Pacific railway, returned to the city this morning after a visit to Burlington, Mo.

SAMUEL EVANS, of Marshall, Mo., is stopping at the White house. He is a large cattle dealer, and while attending the Irrigation congress at Ogden, he is investigating the business opportunities there.

COLONEL WILLIAM HARPER, who has been filling the position of night clerk at the Walker house, left this morning for Glenn's Ferry, Idaho, to head an engine on the Southern Pacific, and with distinction by his valor in holding up train robbers at two different times.

WHITE HOUSE.

Corner of Main and Second South. Most central location of any hotel in the city. Opposite postoffice. Union Ticket and Pullman office in the hotel. Newly remodeled and furnished throughout. Table unexcelled. Electric light, bells and all modern conveniences. Terms \$1.50 to \$2.50 per day.

H. L. HALL, Prop.

Best quality raisins 10 cents per pound at People's Equitable Co.-Op.

A SOUND LIVER MAKES A WELL MAN.

You are bilious, constipated or troubled with indigestion, sick headache, bad taste in mouth, foul breath, coated tongue, dyspepsia, and between the shoulders, chills and fever, etc. If you have any of these symptoms, your liver is out of order, because blood is slowly being poisoned. Herbine will cure any disorder of the liver, stomach or bowels. It is as equal as a liver medicine. Price 75 cents. Free trial bottle at Z. C. M. I. drug department.

NOTICE.

Now that paved sidewalks are completed over a large part of the city, I request care should be taken by the owners thereof to sweep them often, and see they are kept clean.

GEORGE M. SCOTT, Mayor.

PENNSYLVANIA.

Fire insurance company, of Philadelphia will insure your property.

H. J. GRANT & Co., Agents.

Mrs. Lamb's millinery reception Tuesday, September 22, will be the grandest event of the kind ever given in Salt Lake city.

They give one complete household treasure containing 140 best English needles with every pair of shoes sold at the People's Equitable Co.-Op., and prices are extremely low.

White blankets 95 cents pair at People's Equitable Co.-Op.

OCULISTS AND AURISTS.

Dr. E. L. Coon treats successfully, paralysis, rheumatism, kidney and liver diseases, catarrh, and all diseases of the mucous membranes, diseases of the heart and lungs.

Electric and bath treatment are special features of Dr. Coon's treatment.

Office hours 10 to 12 a. m. 2 to 4 p. m. 328 S. West Temple street, Salt Lake City.

Big slaughter sale at People's Equitable Co.-Op.

## GEOLOGIST GUESTS

The Flow of Wit and Feast of Reason at the Knutsford.

ALSO OTHER SUBSTANTIALS

Professor Holden's Complimentary Dinner to the Visiting Scientists at Most Agreeable Affair.

Last night the dining hall of the Knutsford was the scene of a most pleasant gathering, the occasion being a complimentary dinner to the geological excursionists given by Prof. L. E. Holden and wife. The affair was almost impromptu, for only late in the day was Manager Holmes informed as to what demands would be made upon him.

A glance into the spacious chamber was sufficient to satisfy the most fastidious. The tables were arranged in the form of a hollow square, with a centre section, and covers were placed for 140 guests. Everything was in black and white, even the complement of forty efficient waiters presented a play of color from ebony to spotless linen as they moved with almost military precision to the tap of the bell.

At about 8 p. m. the doors swung open and the guests assumed their places at the table.

In the center of the main division at the south end of the hall sat Prof. L. E. Holden, and upon his right sat Mrs. Mary Caroline Hughes, of Cambridge, England. Further on was the venerable looking Senator Stewart, Judge C. S. Zane and Governor A. L. Thomas with their ladies. To the left of Mrs. Holden sat Prof. Dr. Von Zittel, of Munich, Judge Goodwin and Mayor Scott, also with their respective ladies. The extreme right and left were held by Messrs. Hollister and Billings. The rest of the distinguished guests were seated in chaise as testimonials, and no rank being other convenience dictated.

Without ceremony the following MENU

was disposed of amid pleasant converse, and with a relish which the rides of the day had made possible:

Green Turtle, Nemour, Consomme, Tachet, Celery.

Mountain Trout, Colbert.

Cucumbers, Potatoes Hollandaise, Tomatoes.

Larded Fillet of Beef, Rouland, Cauliflower.

Potatoes au Gratin, Cauliflower, Béchamel, Princess.

Spring Chicken Saute, Chateaufort, Bananas, Biscuits, French Peas.

Punch, Imperial.

Real Duck, Nougat.

Saratoga Chips, Lettuce, Marquise.

Charlotte Russe, Gelatin, Marquise.

Pistachio Ice Cream, Cake.

Edam Cheese, Crackers, Cafe Noir.

After all had fully regaled themselves, by the request of Prof. Holden Hon. C. C. Goodwin acted as toastmaster, and Governor A. L. Thomas made a pleasant address of welcome.

Senator W. M. Stewart, of Nevada, said this evening's dinner was honored by the presence of this distinguished group of men. There is nothing so elevating as the study of nature.

This century had been marked in one respect—the subjugation of the elements of nature and making them do the bidding of man and rendering human freedom possible. The young of to-day know all about a half century's work in the world of knowledge had cost millions, but it had turned back for the outlay.

The progress in the sciences was especially to be noted in the world of knowledge had cost millions, but it had turned back for the outlay.

The gathering of so large a number of men, learned in nature, from all parts of the old world demonstrated how thoroughly knowledge was distributed. The speaker was pleased to add his greeting to that of Utah.

Prof. T. McKeaney Hughes said there was one man there whom he had a real respect for, Mr. G. F. Gilbert, the man who had written the speech for the day, and failed to put it. Being a geologist he was cautious, and after a day in the hills, a round drive, and with only time to trouble him to the uttermost, he was unable to at least tell where miners could be found and thus a saving would be made.

The gathering of so large a number of men, learned in nature, from all parts of the old world demonstrated how thoroughly knowledge was distributed. The speaker was pleased to add his greeting to that of Utah.

Prof. T. McKeaney Hughes said there was one man there whom he had a real respect for, Mr. G. F. Gilbert, the man who had written the speech for the day, and failed to put it. Being a geologist he was cautious, and after a day in the hills, a round drive, and with only time to trouble him to the uttermost, he was unable to at least tell where miners could be found and thus a saving would be made.

What impressed him was every thing here is enormous, the distances are enormous, the progress of this city has been enormous; he has seen a block or systems of railway lines that they were built yesterday, and when he pointed to the possibilities so enormous was way to-morrow. "Your growth in education, in universities, museums and all departments of learning has been enormous. You have enormous streets that are beautiful, your hotel is enormous and elegant and your hospitality is elegant and enormous."

Prof. L. E. Holden said: "I am indeed glad to have the honor of entertaining this body of people, and together with many other Salt Lake friends show them the resources and wonders of this region. To such men we are indebted for progress in all branches of business. We are glad to welcome them as helpers of our material growth. I thank them for coming here, and I am glad to look into their faces and take them by the hand."

Prof. G. F. Barker, of Philadelphia, said he stood as a geologist, but as a hanger on. It was a time to fully discuss our relations, but the great phenomena that had recently witnessed especially in the national park caused him to believe that man was not a creature of the earth, and one was that human nature could be fused at a lower heat than rocks. They came from the park a compact mass, because they had studied the igneous action. Most of all, they had discovered how society as well as geology is developed, and were grateful for the opportunity to study this formation.

There were mysterious connections to study, just as there were between the great and smaller geysers.

But after all human nature is the great study and we come here not to study rocks but to discover Mrs. and Prof. Holden.

Prof. Dr. Von Zittel, of Munich, expressed surprise and regret that he could not speak fluently in English—in that his tongue would be full of nice things. The impressions once had were now faded—no desert, but a garden, and where they had a family life as a study might have been presented, a magnificent city, modern and complete is shown, full of promise and all are astonished. Our trip shows that we are indebted for progress in all branches of business. We are glad to welcome them as helpers of our material growth. I thank them for coming here, and I am glad to look into their faces and take them by the hand."
